

# BEHAVIOUR MANAGEMENT TRAINING

Priory Park Community School is an independent SEMH school, working with some of the most challenging students in Dudley. Our team has extensive experience working in mainstream secondary/primary schools and pupil referral units, often working with very complex students in difficult circumstances. At Priory Park, we advocate for a "Nurture with Boundaries" approach to behaviour management using our "iCan" expectations and the embedding of restorative practices.

Priory Park offers training adapted to the needs of your team and your students. We will work closely with your setting to ensure your staff receive a valuable experience. Our programs range from a short 30-minute presentation to a longer more in-depth and interactive course.

**We are proud of our school and would love to share what we do.**
